GENERAL INFORMATION

MICRO-MIX is powered by a patented combination of amino acids and proteins which activate several beneficial biological and environmental responses in plants. This proprietary nutritional technology increases yield potential, improves growth, plant health and quality.

MICRO-MIX is a micronutrient compound recommended for foliar application. It is completely available and readily absorbed on the leaf surface or by the root system. It is non-phytotoxic when used as directed.

DIRECTIONS FOR USE

MICRO-MIX is compatible with most insecticides, herbicides, fungicides and foliar materials. Always make a jar test before tank mixing. It can be included in existing spray programs. Follow the mixing sequence: 1) water; 2) **MICRO-MIX**; 3) pesticide or foliar material. For best results spray when the crop is actively growing, after irrigation or rainfall. Foliar applications should be made in the early morning or late afternoon for maximum absorption.

RECOMMENDED RATES

Turf:

Sports Turf and Greens: 1.0 to 3.0 fl oz per 1,000 sq ft.

Lawns and Fairways: 2.0 to 5.0 fl oz per 1,000 sq ft.

New Seed and Overseed: 2.0 fl oz per 1,000 sq ft.

Aeration of Greens and Tees: 4.0 to 5.0 fl oz per 1,000 sq ft in combination with first fertilizer application after aeration.

Ornamentals:

Flowers and Vegetables: 1 tbs per gal of water. Drench plant

Trees and Shrubs: Apply with root feeder in combination with regular fertilizer at a rate of 4 fl oz per 100 gal of water.

WHAT TO DO IN CASE OF CONTACT

If Ingested: Give large amounts of water or milk, if conscious. Contact a physician immediately.
Eye Contact: Flush eyes with clean water for 15 minutes. Seek medical attention immediately.
Skin Contact: Remove contaminated clothing and wash skin with soap and water. Seek medical attention if irritation develops or persists.
If Inhaled: Move to fresh air and seek medical attention if irritation develops or persists.
