### GENERAL INFORMATION

This formula is excellent for foliar application on pasture, vegetables, row crops, trees, and turf grass. High urea and very good solubility make this an especially effective foliar fertilizer.

### DIRECTIONS FOR USE

**General Use:** 3 – 10 lbs per acre. Use this product as a foliar application to supplement the normal soil applied fertilizer program. Can be applied by aircraft at rates equivalent to 1 lb. to 1 gal. of water per acre. For back-pack sprayers use at the rate of 4 teaspoonful per gallon. For transplanting dissolve 5 lbs per 100 gallons of water.

Balanced nutrition is essential to optimum plant growth and yield.

**COMPATIBILITY:** **CHEM-SOL ALL SEASON FOLIAR** is compatible with most pesticides commonly used on row crops including **Glyphosate** applications. Do not use with highly alkaline spray materials. Add **CHEM-SOL ALL SEASON FOLIAR** to the spray tank when it is at least half full. Agitation is suggested to increase the speed of solubility.
